Fencing

- Called local fencing companies for quotes
- Wanted black chain link fencing
- Got quotes from three companies on fencing

Hi Kimberly,

I have pleasure in submitting our price for the proposed dog run, as follows:

- To remove and haul off the existing pvc pipework, wooden posts and netting
- To supply and install an total area of 40' x 60' galvanized chain link fencing, with all posts, rails and fittings, together with 1 entrance gate

For all materials and labor, our total charge would be \$1,000

If required, for us to supply and install brown cypress mulch on top of the existing sand and pvc matting would be \$1,000

I look forward to your further instructions.

Sincerely,

Equipment

- What equipment all goes into a dog park?
 - Benches
 - Dog toys
 - Dog waste dispenser
 - Leash rack
 - Other decorations

Breaking Ground

- Once I got all the expenses approved, it was time to break ground!
- The Office Staff kept the tenants updated on the status of the Dog Park as it was being built

Challenges

- Fencing was being installed as galvanized when I wanted black fencing!
 - Called contractor, turns out, I agreed to galvanized fencing.
- Regardless, the fencing looked great!
